

Lagoon Day 2015 Solution Finders EXPO

Young ideas for better care
for the next 50 years

Tomorrow 10am-2pm

ALL WELCOME TO THIS FREE EVENT **Friday Oct 23rd 8.30am-2pm**

Info Desk

Booth A Koutu Nui

It's time to discuss whales in our waters. The Koutu Nui look forward to sharing and hearing from you.

Booth B Cook Islands Voyaging Society

Learn about our vaka and it's environmental messages to the world. Now leave your own message to be taken across the world by vaka.

Booth C Tereora College projects

Energy conversion via steam cars and a solar cooker. Find out what can travel 1km on 20ml of fuel.

Investigating agriculture. How does salt water impact plant growth on land?

How does nitrogen in urine impact plant growth on land?

Booth D Te Ipukarea Society

Check out what TIS is up to for our sakes. See the Hungry Bin's progress. After 2 year's trial new bins are heading to schools wishing to recycle more than just solid waste.

Titikaveka Growers Association

Recycling organic matter by composting.

Booth E Apii Rutaki project

Using the banana pseudostem for planting to retain and save water

St Joseph School display student's learning on recycling.

Booth F National Environment Service

Discover the vital natural services provided by wetlands. Invasive species, are they really taking over?

Booth G Araura College Enviro Squad projects

Do you love it enough? Kia ma! Projects, assessments and surveys to better manage solid waste and implement the 5Rs. School rubbish assessments, Survey of people's attitudes and actions to reduce solid waste, Beach assessments, transects and clean ups

Site 1 Pacific Resort

What happens to all that waste cooking oil? See a truck that runs on the smell of fish n chips!

Site 2 kiaTAERIA & Dee Pigneguy

The secret ingredients for growing better brains, better bodies, better environments. Learn about Enviro schools and home gardens.

See what Apii Te Uki Ou Potiki have turned their lunch scraps into.

Site 3 National Environment Service

ODS - they're a part of our everyday lives, but just how much damage are they doing?

Site 4 Marae Moana

We invite you to share your opinions and ideas on three different zoning proposals for our Marae Moana.

Site 5 Climate Change Office

Using local knowledge to understand climate variability and climate change impacts in the Cook Islands.

Site 6 Araura College Enviro Squad

Aitutaki's "Enviro School" shares their journey towards zero waste - raising awareness & actioning the 5 Rs.

Also, what they've learned about cultural uses of our environment, coral propagation, collecting marine data, school gardens, composting, and awareness raising in the community.

Site 7 WATSAN

Learn about the effects of wastewater upon lagoon ecosystems.

Site 8 Pacific Islands Conservation Initiative (PICI)

Investigate our lagoon - impacts, energy conversions in nature and identifying organisms.

Site 9 Ministry of Marine Resources

Look, touch and learn. See recent water quality results and trends over time. Compare healthy and degraded lagoons. View posters of black pearl seeding and processes.

Seating & Rest area

Food stalls

Discussion Booths

A, B

PUNA KORERO GROUNDS
